

Tax Checklist for Business 2023/2024

1 of 2

Small Business Entities ('SBEs') i.e., those with an aggregated turnover of less than \$10 million often have greater tax planning opportunities compared to other businesses, due to certain concessions generally only applying to them. SBEs usually also have the flexibility to pick concessions that suit their circumstances. However, for 2023/24, many of the SBE concessions are now also available to medium sized businesses ('MSBs'), i.e., businesses with an aggregated turnover of less than \$50 million.

The following are common strategies that may be considered for **all** business taxpayers.

Deductions for non-SBE business taxpayers

Deductions can be maximised for non-SBE business taxpayers by **prepaying expenses, accelerating expenditure and/or accruing expenses** that have been incurred.

Prepayment strategies

Any part of an expense prepayment relating to the period up to 30 June is generally deductible.

In addition, non-SBE taxpayers may generally claim the following prepayments in full:

- expenditure under \$1,000;
- made under a 'contract of service' (e.g., salary and wages); or
- required to be incurred under law.

Note: Medium-sized business ('MSBs') may fully deduct prepayments made before 1 July 2024 (refer below).

Accelerating expenditure (including depreciation deductions)

Accelerating expenditure involves bringing forward expenditure on regular, on-going deductible items.

In fact, this is a useful strategy for any business taxpayer (i.e., including SBEs) because businesses can generally claim deductions for expenses they 'incurred' during 2023/24, even if the expenses have not actually been paid by 30 June 2024.

Examples of accelerated expenditure that may be incurred and claimed as a tax deduction in 2023/24 by a business taxpayer include the following:

- **Repairs**
- **Maintenance**
- **Consumables/spare parts**
- **Advertising**
- **Fringe benefits** – any employee benefits to be provided, such as property benefits, could be purchased and provided prior to 1 July 2024.
- **Superannuation contributions** made to a complying fund, to the extent contributions are actually made (i.e., they cannot be accrued but must be paid by 30 June 2024).

In addition to accelerating expenditure on business items such as those listed above, for 2023/24, non-SBE businesses may claim the following accelerated depreciation deductions for **depreciating assets** first used (or installed

ready) for business use by **30 June 2024**:

- Non-SBEs can generally claim the following depreciation deductions (if applicable) for their business assets:
 - Assets costing less than \$1,000 may be allocated to a Low Value Pool and depreciated at a rate of 18.75% (in 2024) and 37.5% thereafter.
 - In most other cases, the asset's cost is depreciated over its effective life (as determined by the taxpayer or the ATO).
- The instant asset write-off threshold that usually applies to SBEs is to be increased to \$20,000 and extended to non-SBEs with an aggregated turnover of between \$10 million and \$50 million as from 1 July 2023.

Accrued expenditure

Business taxpayers (including SBEs) are entitled to a deduction for expenses incurred as at 30 June 2024, even if they have not yet been paid.

Examples of expenses that may be accrued and claimed as a tax deduction in 2023/24 include:

- **Salary or wages and bonuses** accrued for the number of days that employees have worked but have not been paid as at 30

June 2024.

- **Accrued interest** outstanding on a business loan that has not been paid.
- **Commissions** payments owing to employees or other external parties.
- **Fringe benefits tax ('FBT') instalment** for the June 2024 quarter, if it is due but not payable until July 2024; and
- **Directors' fees payable** as at 30 June 2024, where the company is definitively committed to the payment.

Deductions for SBE taxpayers Accelerating depreciation expenditure

In addition to accelerating expenditure on various business items (refer above), for 2023/24, SBE taxpayers that use the simplified SBE depreciation rules may claim the following deductions in relation to **depreciating assets**:

- The instant asset write-off threshold for SBEs is increased from (less than) \$1,000 to (less than) **\$20,000** as from 1 July 2023.
- The SBE closing pool balance (before current year deductions), if any, could potentially be fully claimed in the 2024 income year, if it is below the increased threshold.

Note: Eligible SBE taxpayers using the simplified SBE depreciation rules **cannot** opt out of full expensing their SBE general pool.

Prepayment strategies (SBEs and MSBs)

SBEs and medium-sized businesses ('MSBs') that make prepayments before 1 July 2024 can choose to claim a full deduction in the year of payment (i.e., in 2023/24), if the payment covers a period of no more than 12 months (ending before 1 July 2025).

Otherwise, the prepayment rules are the same as for non-SBE taxpayers.

The kinds of expenses that may be prepaid include:

- **Rent** on business premises or equipment.
- **Lease payments** on business items such as cars and office equipment.
- **Interest** – check with your financier whether if it is possible to prepay up to 12 months interest in advance.
- **Business trips.**
- **Training courses** that run on or after 1 July 2024.
- **Business subscriptions.**
